

FRITZ!Box 6690 Wi-Fi 6

Tovární nastavení modemu

- Modem na sobě nemá zapuštěné tlačítko reset, je třeba jej provést v administraci modemu.

The screenshot shows the web interface of a Fritz!Box 6690 Cable. The top navigation bar is blue with the Fritz! logo on the left and 'MyFRITZ!' and 'FRITZ!NAS' buttons on the right. The main header is 'FRITZ!Box 6690 Cable'. On the left is a sidebar menu with icons and labels: Overview, Internet, Telephony, Home Network, Wi-Fi, Smart Home, DVB-C, Diagnostics, System (selected), Event Log, Energy Monitor, Push Service, FRITZ!Box Users, Buttons and LEDs, Region and Language, Backup (highlighted in blue), Wizards, and Help and Info. The main content area shows a breadcrumb 'System > Backup' and a sub-header 'Factory Settings'. Below this, there's a text block: 'Here you can restore the factory settings to the FRITZ!Box.' followed by an 'Attention:' section with two bullet points: 'All settings you made in the FRITZ!Box are then deleted. Therefore we recommend creating a backup file before performing a reset.' and 'If you use an individual network key or a special IP configuration, you must change the network settings of your network devices in order to be able to access the FRITZ!Box after performing a reset.' At the bottom right of the main content area, there is a red arrow pointing to a blue button labeled 'Load Factory Settings'.

- Administrace modemu nepodporuje CZ jazyk.
- K továrnímu nastavení se dostaneme těmito kroky:
- V levém sloupci zvolíme možnosti **System** → **Backup** → poté v horní liště vybereme možnost **Factory Settings** a na pravé straně obrazovky zvolíme **Load Factory Settings**.
