

Compal CH7465

Change of WiFi channels

- Enter the address in the internet browser 192.168.0.1 .
- You can switch the settings to Czech at the bottom of the page.
- Enter the password that is shown **on the label** at the bottom of the modem next to "Settings password:"

- Now we will select **Advanced Settings**.
- Click on **Wireless** in the left part and select the **Wireless signal** option.
- Here we switch the **Channel** option to the **Manual** option and we can set the broadcast channel separately for the 2.4GHz and 5GHz network.
- **Confirm** the change by clicking the "Apply changes" button.
- The channels will change within a maximum of 2 minutes.

The troubleshooting procedure did not help?

- In case of non-functionality even after performing the fixed internet troubleshooting procedures, you need to contact our technical support by calling or using the Tobi chatbot, which you can find on our website www.vodafone.cz.
