

Vodafone Station (Arris TG3442DE)

Change of WiFi channels

- Enter the address in the internet browser 192.168.0.1.
- You can switch the settings to Czech at the bottom of the page.
- Enter admin as the username. Enter the password indicated on the label on the back of the modem and click the "Login" button.

- Now it is necessary to click on the **Basic mode** roller in the upper right corner and switch to **Expert mode**.

- In the top bar, select **Wi-Fi**. Now in the left menu, click on **Settings**.

- At this moment, you can set the broadcast channel separately for 2.4GHz and 5GHz network.
- Confirm the change by clicking the **Confirm** button.
- The channels will change within a maximum of 2 minutes.

2.4 GHz

Wi-Fi Mode	Mixed 802.11 g/n
Channel	Auto
Bandwidth	20/40MHz

5 GHz

Wi-Fi Mode	Mixed 802.11n/ac
Channel	Auto
Bandwidth	80MHz

The troubleshooting procedure did not help?

- In case of non-functionality even after performing the fixed internet troubleshooting procedures, you need to contact our technical support by calling or using the Tobi chatbot, which you can find on our website www.vodafone.cz.
