Parental Control Settings ZTE MF255v

- We log in to the ZTE MF 255 V modem in the same way as to modems from other brands.
- But first we need to be logged in to the Wi-Fi modem.
- We'll show you how to do it in this guide.

We click on the available connections on our computer and find the Wi-Fi name of the modem according to the label on the modem.

- We can find the Wi-Fi login information from the bottom of the label.

Wi-Fi name
Wi-Fi password

- We open any browser (in which we search for websites) and enter the link to the page [192.168.0.1](192.168.0.1)

192.168.0.1

In the upper half of the Google window that is used, we enter this address or click on the address in the top line.
