

Firmware update for Zyxel VMG8623-T50A and VMG8623-T50B modems

Connect your PC to your modem using an ethernet cable (when connecting via Wi-Fi, the connection between the modem and the PC may be lost).

Open a web browser (Google Chrome, MS Edge, etc.).

In the address bar, type the IP address shown on the modem's label (<u>https://192.168.1.1</u>).

Click on "Advanced Settings".

Click on "Continue to the website 192.168.1.1".
